Work Experience

Employer:	Verizon-Apprentice
Job Title:	Cloud/Product Tester/Product Owner
Start Date:	November 9, 2021
End Date:	

Responsibilities and Key Accomplishments:

.Test and publish applications/products results. Appropriate configurations and firmware updates are high priority.
.Created Metaverse power point presentation for new product pipeline using existing platform by gathering data from market research as well as gathering data from Verizon partners like ABI Research firm.
.Use AWS Services to create manage and unmanage node using wavelength. We use wavelength for MEC Solution and also cost-effective Solutions.

Employer:	Belle Fleur Technologies
Job Title:	Internship
Start Date:	March 1, 2021
End Date:	May 1, 2021

Responsibilities and Key Accomplishments:

? Worked on data visualization by taking raw data and then curating it using AWS tools (Like Aws Data Brew, Glue, Athena, and Quick Sight).
? Presented the data in the form of storytelling to the end users.
? Performed debugging on AWS tools to create an end-to-end data pipeline.
? Learned about the day-to-day aspects of the Agile process.

Employer:	Isthmus
Job Title:	Etl Developer
Start Date:	October 1, 2018
End Date:	August 1, 2019

Responsibilities and Key Accomplishments:

? Used T-SQL for developing complex stored procedures, user-defined functions, relational database models and data integrity, SQL joins and query writing.
? Optimized the performance of queries with modification in T-SQL queries, normalized tables, established joins, and created indexes.
? Business Intelligence developer, Data Analysis, ETL, Reporting and Data Visualization Tools (SSRS)
? Strong experience in Business and Data Analysis, Data Profiling, Data Migration, Data Validation and Master Data Management SSIS.
? Ability to collaborate with peers in both, business, and technical areas, to deliver optimal business process solutions, in line with corporate priorities.
? Gathered business requirements, definition and design of data source and data flows.
? Created ad-hoc reports and views.
? Created and maintained database objects (tables, stored procedures, and views).

Employer:	Experian

Job Title:	Auditor
Start Date:	August 1, 2001
End Date:	October 1, 2018

Responsibilities and Key Accomplishments:

? Identify fraudulent, compliance, legal, and/or regulatory issues and escalate them appropriately.
? Audit all departments within the NCAC to ensure compliance with federal regulations and internal policies, business requirements and system processes.
? Gathered business requirements, definition and design of data source and data flows.
? Conduct control reviews to ensure that reasonable procedures are being followed.
? Provide statistical and reporting information to various levels of management as needed.
? Working with new hires as a subject matter expert (SME). Responsibility includes auditing phone calls and files for customer service and quality. Also use QMS/AQM for auditing and provide quality feedback.
? Self-trained in fraud/Mixed processes by a peer, where I quickly became one of the top Auditor and high-Quality Auditor.
? Conduct one on one coaching with new hires based on individual needs to improve their service and quality.
? Received recognition from peers as well as trainers regarding effectiveness of my role as a SME.
